Shibumi Equestrian Centre Pty Ltd A.C.N 128 307 157, its officers, employees, agents and contractors (together and individually 'Shibumi'), warn the rider that:

1. a horse is a large, heavy, herd animal, a creature of flight and can react without warning. It has highly developed senses of hearing, sight and smell, which can make its behaviour towards sounds, sudden movement, and unfamiliar objects, people or other animals, unpredictable and potentially harmful to the rider and any person nearby;
2. regardless of its size, weight or age, a horse can bite, bolt, buck, fall, jump, kick pigroot, rear, roll, shy, slip, stop and spin, stumble, or stand on a person, while he/she is riding or interacting with it ('Risks'). The Risks increase in a variety of circumstances, including (but not limited to): riding an unfamiliar horse; horses driven/ridden/handled close together; horse training; when other riders don't control their horses or breach rules; weather affected riding terrain, including fire and smoke; taking a horse into or along water; leading a horse onto or off a float or truck; using clippers; using stables/wash bays/yards; the horse has a vice, bad behaviour or is unsound; the riding gear is not properly fitted, in poor condition or unsuitable; and failure to wear a compliant helmet and protective footwear, despite Shibumi's requirement that they be worn;
3. the following matters and things are or may be present where Shibumi conducts horse related activities, including riding ('Activities') or nearby to the Activities, and can increase the Risks: sheep, lambs, cattle and horses alone or together; stallions and colts, alone or together; dogs on the loose, on leashes or runs; specific forms of birds and wildlife (eg kangaroos, snakes); unusual species of farm or domestic animals (eg llamas); raucous children and sirens; rabbit holes and warrens and wombat holes; vehicles, bicycles, motorcycles, tractors, farm machinery and equipment, stationary or moving; thick bush; types of terrain (eg slippery, rocky, steep, water logged, dusty and uneven); harsh or extreme weather conditions; aircraft flying low overhead; paddock and arena fencing of various forms, including electric wiring; equipment and obstacles used in the training of horses for carriage driving/riding ie dressage or show jumping (eg rails, upright poles, in ground or cross country poles, bridges and dams/water obstacles);
4. because of the Risks, the rider will be exposed, by riding and/or handling a horse, to the possibility of death, serious permanent personal injury (including paralysis and brain injury) or minor injury, even if he/she acts safely and wears an approved helmet and protective footwear but especially if no such helmet or footwear is worn.
