

What does it mean to have proper nutrition?

Nearly 30 years down the track, Pryde's Easi Feed continues to stand as a proud Australian family business. Based in Gunnedah on the Liverpool plains, Pryde's is the only facility of its type producing extruded cubes, extruded sweet feeds and pellets on three separate production lines

There is a lot of information out there to consider when it comes to equine nutrition, and some of it can be quite misleading Come to the clinic and get some insight to the lengths that Pryde's go through to ensure that a high quality product is delivered all year round

Regardless if you are dealing with laminitis, founder, tying up, ulcers, dull coats, hoof problem or whatever it may be. Nutrition at the end of the day has a massive impact with the horse's health and how prone they are with developing any equine ailment issues. Pryde's has the answers and will give you a better insight with some of these problems and how you can combat them nutritionally.

Basic care for your horse is important to consider. With being able to understand nutritionally how to look after your horse, this will ensure a happy life for both yourself and your four legged friend.

Thru the clinic you will gain a better understanding with how to feed your horse, learn the importance of feeding in the correct manner and how to avoid common ailments associated with owning a horse.

Pryde's has a feed to suit all horses and all budgets. If you are not sure which feed is best suited for your horse, bring your list of questions to the clinic and get a better understanding of which feed you should use.
